MEDIA & DIRECTORY OPT OUT
To be completed by Parent/Guardian

- This form does **not** need to be submitted unless you wish to opt out of the items covered below.
- You can exercise your rights outlined below by submitting this form within the first two weeks of enrollment. This form must be submitted at the beginning of each school year.

Your child may be interviewed, photographed, or audio/video recorded for print, radio, television, internet, or any other medium, unless you direct otherwise by checking the box below:

I understand that district staff may interview, photograph, audio or video record my child for district use during normal operations of school and activities. However, I do NOT want such interviews, photographs, audio or video recordings released in the media or online. I understand that this means that my child will sometimes be unable to participate in certain school/classroom apps and events.

As per the Family Educational Rights and Privacy Act (FERPA), directory information may be shared without prior written consent by parents. In addition, FERPA required the District to share student information under certain conditions, regardless of parent consent.

- As per policy 216, the District has designated the following information as directory information: student’s name, address, telephone listing, electronic mail address, photograph, date/place of birth, major field of study, dates of attendance, grade level, participation in officially recognized activities and sports, weight/height of members of athletic teams, degrees/honors/awards received, most recent educational agency/institution attended, student ID (number, user ID or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc.).

If you do not want the District, unless required to do so by FERPA, to disclose directory information from your child’s education records without your prior written consent, you must notify the District in writing by using this form and checking the box below:

I do not want the District to disclose my child’s directory information unless required to do so by law. I understand that this means that my child’s photograph will **not** appear in the annual school yearbook. It may also preclude my child from participation in certain sports/activities when outside authorities (i.e. PIAA) require directory information.

Section	200 Pupils
Title	Pupils Network/Internet Acceptable Use Policy
Code	252
Status	Active
Adopted	March 19, 2012
Last Revised	August 18, 2014

Purpose

The Board supports use of the Internet and other computer networks in the district's instructional and operational programs in order to facilitate learning, teaching, and daily operations through interpersonal communications and access to information, research, and collaboration. Our goal in providing this service to students is to provide educational excellence in the district by facilitating resource sharing, innovation, and communication.

For instructional purposes, the use of network facilities shall be consistent with the curriculum adopted by the school district as well as the varied instructional needs, learning styles, abilities, and developmental levels of students.

Authority

The electronic information available to students does not imply endorsement by the district of the content, nor does the district guarantee the accuracy of information received. The district shall not be responsible for any information that may be lost, damaged, or unavailable when using the network or for any information that is retrieved via the Internet.

The district shall not be responsible for any unauthorized charges or fees resulting from access to the Internet.

The Board establishes that computer and network use is a privilege, not a right; inappropriate, unauthorized and illegal use will result in cancellation of those privileges and appropriate disciplinary action.

The Superintendent or designee shall be responsible for determining whether the district computers are being used for purposes prohibited by law or for accessing sexually explicit materials or any other materials deemed to be inappropriate. The procedures should include but not be limited to:

1. Utilizing a technology protection measure that blocks or filters Internet access for minors and adults to certain visual depictions that are obscene, child pornography, harmful to minors with respect to use by minors, or determined inappropriate for use by minors by the Board.
2. Maintaining and securing a usage log.
3. Monitoring online activities of minors.

Delegation of Responsibility

The student shall make every effort to ensure that this resource is used responsibly.

Students have the responsibility to respect and protect the rights of every other user in the district and on the Internet.

District Administrators or designee shall have the authority to determine what constitutes the inappropriate use of network resources.

District Administrators or designee shall have the authority to determine what constitutes inappropriate content.

Guidelines

The Internet and the Wattsburg Area School District system are “public places.” You must always remember that you are sharing this space with many other users. Because network connections are granted to you as a part of the larger scope of the curriculum, the Wattsburg Area School District reserves the right to monitor all traffic on the network. Additionally, we reserve the right to review, copy, and/or examine any information that resides on any of the school’s computers or networks. Our goal is to make sure the network continues to function properly for all of its users.

No user shall expect that their network files, Internet access, or e-mail communications are private. All network transactions and communications are technologically public in nature. All sites visited on the Internet are tracked by computers in the district and the sites themselves. The time, date, site visited, and computer used for access are all logged.

Electronic communications shall not be considered private. It is very easy to accidentally send a communication to the wrong person by mistyping the wrong address. Users shall not write anything in an electronic communication that they would not want to have broadcast over the public address system. All student electronic information should be backed up on each student’s private storage device periodically throughout the school year. Administrators reserve the right to purge student electronic data when necessary in accordance with document retention policies.

Unacceptable Uses

Students are expected to act in a responsible, ethical, and legal manner in accordance with district policy, accepted rules of network etiquette, and federal and state law. Specifically, the following uses are prohibited:

1. Illegal, inappropriate activity, including so-called “hacking” and other unauthorized uses.
2. Commercial or for-profit purposes.
3. Product advertisement or political lobbying.
4. Hate mail, discriminatory remarks, and offensive or inflammatory communication.
5. Unauthorized or illegal installation, distribution, reproduction, or use of copyrighted materials.
6. The illegal installation and/or utilization of copyrighted, unauthorized games, programs, files, or other electronic media.
7. Access to obscene or pornographic material or child pornography.
8. Access by students to material that is harmful to minors in accordance with Board policy.
9. Inappropriate language or profanity.

Transmission of material likely to be offensive or objectionable to recipients.

1. Illegal/inappropriate material.
2. Intentional obtaining or modifying of files, passwords, and data belonging to other users.
3. Impersonation of another user, anonymity, and pseudonyms.
4. Fraudulent copying, communications, or modification of materials in violation of copyright laws.
5. Disruption of the work of other users.
6. Destruction, modification, abuse or unauthorized access to network hardware, software and files.

Security

System security is protected through the use of passwords. Failure to adequately protect or update passwords could result in unauthorized access to student files. To protect the integrity of the system, the following guidelines shall be followed:

1. Students shall not reveal their passwords to another individual.
2. Users shall not use a device that has been logged in under another employee account.
3. Any user identified as a security risk or having a history of problems with other technology systems may be denied access to the network.
4. User credentials shall be issued by the Information Technology department.

Consequences for Inappropriate Use

The student shall be responsible for damage to the equipment, systems, and software resulting from deliberate or willful acts. Damage will be determined at the discretion of the Superintendent or designee.

Illegal use of the network; intentional deletion or damage to files of data belonging to others; copyright violations; and theft of services may be reported to the appropriate legal authorities.

General rules for behavior and communications apply when using the Internet, in addition to the stipulations of this policy. Loss of access and other disciplinary actions may be consequences for inappropriate use.

Vandalism may result in cancellation of access privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet or other networks; this includes but is not limited to uploading or creating computer viruses.

Copyright

The illegal use of copyrighted software by Students is prohibited. Any data uploaded to or downloaded from the network shall be subject to fair use guidelines.

To the greatest extent possible, users of the network will be protected from harassment and unwanted or unsolicited communication. Any network user who receives threatening or unwelcome communications shall report such immediately to a teacher or an administrator. Network users shall not reveal personal information to other users on the network, including chat rooms, e-mail, Internet, etc.

CIPA (Children's Internet Protection Act) compliant software is used for filtering in the Wattsburg Area School District.

Internet safety measures shall effectively address the following:

1. Control access by minors to inappropriate matter on the Internet and World Wide Web.
2. Safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications.
3. Prevention of unauthorized online access by minors, including “hacking” and other unlawful activities.
4. Unauthorized disclosure, use, and dissemination of personal information regarding minors.
5. Restriction of minors’ access to materials harmful to them.
6. Monitoring the online activity of minors.
7. Educate minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, cyberbullying awareness, and response.

Policy Requirements

Students have a responsibility to promptly report any Acceptable Use Guideline violations to the appropriate teacher or building principal.

Students who encounter inappropriate materials by accident should immediately report it to their teacher or building principal.

Students

Students, grades K-4, are required to have a parent or guardian sign the Network/Internet Acceptable Use Policy (AUP) permission form upon entrance to the school building, at promotion from building to building, or after revision of this policy

Students, grades 5-12, as well as their parent or guardian are required to sign the Network/Internet Acceptable Use Policy (AUP) permission form upon entrance to a school building, at promotion from building to building, or after a revision of this policy.
