## Family...

### Have Fun

You'll enjoy time with your friends as you learn more about life, academics, and leadership in a safe, recently remodeled, state-of-the-art facility that boasts an extensive network of security cameras and entrance doors that require a district ID badge for entry during school hours.

### Be a Star

Whether you're into academics, clubs, extra-curricular or sports – Seneca offers you the chance to shine! ROTC, school newspaper, yearbook, band, chorus, French club, baseball, soccer, football, ...the list just keeps on growing.

### Get Smarter!

With high expectations and the experienced staff to guide you, you will discover more potential within you than you ever could have imagined. Our teachers are committed to delivering information to you with the very latest, data-driven, research-based techniques available. We create interactive "hands-on" lessons that enable you to take charge of your learning. You'll work in cooperative groups and learn by doing real life activities.

### Explore New Things

Seneca's core curricular classes are supported by technology – use promethean boards in your presentations, use our high speed, Wi-Fi Internet to help in your searches, and use laptop computers to mobilize your learning. Become an expert in creating PowerPoint presentations, multi-media presentations, Excel spreadsheets, and Word documents. In some classes you'll use our new, on-line textbooks that eliminate the need to carry heavy textbooks home each evening. You can even check out your class grades and assignments on-line.

## Tradition...

### Discover the Inner YOU

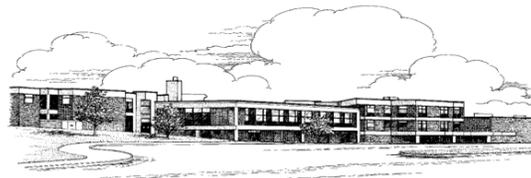

Teachers and coaches will challenge you to become the best person that you can be, pushing you to expect more of yourself than you ever imagined. Our small class sizes (avg. 20) and low counselor to student ratio help to create an individualized learning environment where teachers and administrators are able to offer a curriculum tailored to your needs, your goals, and your dreams.

### Develop Lifelong Friendships and Relationships

You will have the opportunity to play together, learn together, laugh and love. You will be afforded the chance to work on projects that draw you closer to your community and to one another. The friendships and supports that you develop in high school will follow you throughout your lifetime and provide a strong foundation from which to build.

### Experience Leadership

Through our clubs, such as Student Ambassadors, organizations like NHS, Student Council, ROTC and the various sports and academic teams, you will have the chance to lead by word and by action. Our school is small enough to offer you a chance to participate in whatever activity you desire, but large enough to have the resources to offer you a wide range of endeavors.

## Excellence...

### Build Academic Excellence

Did you know that Seneca's scores on the PSSA tests consistently score amongst the top in the county? Excellent math, reading, science, and writing skills are essential to a successful college and career experience. We also offer many different Advanced Placement classes that can count for college credit, and we offer concurrent college courses where you can take real college courses with real college professors for real college credit.

### Grow Through Education

Seneca High School offers its students the chance to flourish and mature in social and academic situations. Our students have the opportunity to participate in numerous field trips that augment classroom learning with real life experiences. Public education also offers students the chance to interact with people from all different walks of life and from all over the globe which better prepares them for their lives after graduation.

### We are Seneca High School and we are Bobcats!

You will grow to be a learner and a person that **you** will be proud of!
